WORK EXPERIENCE

Ontario Digital Service · Product Designer
January - April 2020

- Redesigned a responsive web platform for renewals in Figma for accessibility and is used by 5 million Ontarians annually
- Designed and implemented Ontario's COVID-19 microsite (covid-19.ontario.ca) using Figma and React viewed by 1.25 million people one week after launch
- Conducted 22 user-testing sessions to measure success of designed interfaces for future weekly iterations

Microsoft · Designer & Software Developer
July - August 2019

- Designed and developed an inventory tracker for internal use by over 2,000 Microsoft employees
- Created two budgeting web apps for enterprise and student markets by utilizing Sketch and React
- Presented to over 800 employees at Microsoft Canada's National Annual General Meeting

Self-Employed · Freelance Designer
September 2016 - August 2019

- Designed two web applications and more than 30 marketing assets, including a logo worn by over 1000 people, and a 136 page yearbook read by over 700 community members

EXTRACURRICULARS

Waterloop · Web Designer
February 2020 - Present

- Redesigned components in Figma and developed them in React to be used on the new website (waterloop.ca)

CUTC · Lead Designer
December 2019 - Present

- Led the design team to define graphics for the 2020 Canadian Undergraduate Technology Conference (CUTC) theme "Reconnect" which is held virtually for over 500 attendees
- Established an end-to-end organizational process by emphasizing deliverables such as social media graphics, website designs, illustrations, and mobile app UX/UI designs
- Facilitated design handoffs and collaboration with developers
