work experience

Ontario Digital Services · Product Designer
January 2020 - Present

- Utilized a user-centric design approach to envision and create seamless online service experiences
- Redesigned an online renewals platform to be accessible and used by over 5 million Ontarians annually
- Prototyped Ontario's COVID-19 microsite in Figma, resulting in over 1.25 million page views in one week
- Conducted 22 weekly user-testing sessions to measure success of designed interfaces for future weekly iterations

Microsoft · Software Developer and Designer
July - August 2019

- Designed and developed an inventory tracker for internal use by over 2000 Microsoft employees
- Built two budgeting web apps for enterprise and student markets by utilizing Sketch and React.js
- Presented to 800+ employees and executives at Microsoft Canada's National Annual General Meeting

Self-Employed · Freelance Designer
September 2016 - August 2019

- Executed branding strategies for community projects through logo creation and graphic design with Adobe Photoshop and Illustrator
- Created 30+ marketing assets, including a logo worn by 1000+ people, and a 136 page yearbook read by 700+ community members

leadership

CUTC 2020 · Lead Designer
December 2019 - Present

- Led the design team to establish the theme "Connect" and create assets for the execution of CUTC 2020 by consulting with multiple teams
- Defined an end-to-end organizational process by emphasizing deliverables such as social media graphics, website designs, and app UX/UI design
- Coordinated with the CUTC general team on logistics and event planning to host the conference for over 500 students and 25 sponsors
