EXPERIENCE

Ontario Digital Service · Full Stack Developer

September 2020 - December 2020

Architected and coded the prototype for ServiceOntario's future appointment booking system to be used by over 5 million people annually using the design system, React.js, and Firebase

Developed the province of Ontario's COVID-19 data visualizations (covid-19.ontario.ca/data) and informational microsites to release version 2 publicly, overall averaging over 450,000 unique views per month using React.js, Antd, and ApexCharts

Ontario Digital Service · Product Designer

January 2020 - April 2020

Redesigned and developed an inclusive user interface in Figma and React.js, allowing 5 million users to renew government ids annually

Spearheaded Ontario's COVID-19 sites (covid-19.ontario.ca) in Figma and started the creation of reliable data visualizations in React.js with ApexCharts which had 1.25 million viewers one week after launch

Microsoft · Software Developer

July 2019 - August 2019

Developed the frontend of an inventory tracker for internal use by over 2,000 employees, reducing the request processing time for marketing materials by over 85% using React.js

Presented the beta launch of the inventory tracker to over 800 employees at Microsoft Canada's Annual General Meeting

PROJECTS

Six Degrees of Spotify /six-degrees

Java, Spring Boot, Vaadin, Neo4j, Cypher · April 2020 - August 2020

Built a web application using the Vaadin framework to show that artists are typically separated by six or fewer collaborations songs

Maintained a Neo4j graph database with over 400,000 artist collaboration relationships parsed from the Spotify API

Created unit and integration testing suites to ensure proper search results and a quality user experience

thumb · Camp Figma /figma-thumb

JavaScript, TypeScript, React.js · August 2020

Developed a Figma plugin that generates an inclusive thumbnail for a Figma file based on user selections

EDUCATION

University of Waterloo

Systems Design Engineering (B.ASc)

September 2019 - April 2024

Cumulative Average: 89.0%

Relevant courses: Human Factors in Design, Data Structures and Algorithms

SKILLS

Development

Languages: Java, JavaScript, TypeScript, HTML, CSS/SCSS, C++, SQL, Python, Cypher

Frameworks/Libraries: Spring Boot, React.js, Redux, Node.js, JUnit, Bootstrap

Tooling: Docker, Neo4j, Firebase, Microsoft Azure, Google Cloud Platform, PostgreSQL

Design

Figma, Sketch, Balsamiq, Zeplin, Adobe Creative Suite

COMMUNITY

Blueprint · Product Designer

August 2020 - Present

Designing a decision workflow platform for time, money, and professional expertise to be invested in local non-profits which has been used to allocate over $2,000,000 in funding so far (uwblueprint.org)

Waterloop · Developer & Lead Designer

February 2020 - Present

Developed components in TypeScript/React.js for Waterloo's Hyperloop team website (waterloop.ca)

Mentored designers in agile, one week sprints to iteratively create mockups for the website in Figma

CUTC 2020 – 2021 · Lead Designer

December 2019 - Present

Led the design team to establish an end-to-end organizational workflow and create a digital presence for the conference which was held virtually for over 2,000 attendees (cutc.ca)
